5 CENTS A COPY

## Madden Murmurs

Mrs. Lloyd Havens visited at the home of her sister, Mrs. Alton High, at Airdrie on Friday last.

Mr. and Mrs. L. Chatterton and small son were at the home of her mother, Mrs. H. J. Stone, and her sister, Mrs. V. Rach, on Monday before leaving by motor for their home in Langley Prairie, B. C.

Mr. and Mrs. Jack Paige visited at the home of the latter's parents, Mr. and Mrs. J. R. Banta, for the Thanksgiving week-end.

Hazel Havens spent the week-end at the parental home.

Threshing around the Madden district is nearing completion.

Mrs. Johnnie Cameron is visiting at the home of Mr. and Mrs. Fred Spretter.

Mr. and Mrs. R. Havens and Richard were Calgary visitors on Saturday.

Kicked on the forehead by a horse he was chasing out of the yard last week, Owen Fike, 10-year-old son of Mr. and Mrs. Irvine Fike of Madden, is in a Calgary hospital suffering from a fractured skull and severe concussion. His condition is serious.

## Meeting Of Rural Deanery Of Red Deer

A large and representative meeting of the Rural Deanery of Red Deer met in Olds on Wednesday of last week. Representatives were present from Bashaw, Mirror, Alix, Lacombe, Blackfalds, Rocky Mountain House, Red Deer, Pine Lake, Elora, Lousana, Innisfail, Bowden, Olds, Harman, Didsbury and Crossfield; about 38 attended the morning sessions and nearly 70 in the afternoon. St. John's W.A. provided an excellent lunch at noon and a delightful cup of tea at 4:30.

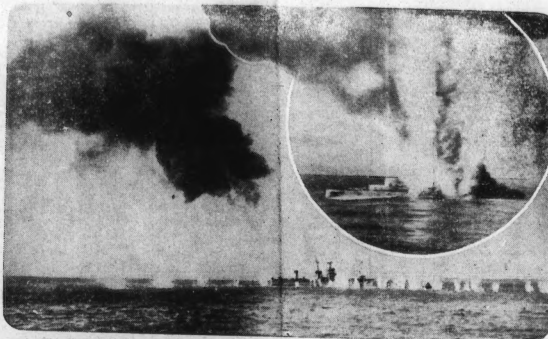

The Rev. A. D. Currie, the Rural Dean, conducted Holy Communion at 10:00 a.m. for those present and held a meeting of the clergy in the church. Mr. Tredway, representative for the Deanery on the executive committee, was in the chair for the lay delegates at the morning meeting.

In the afternoon, the Bishop addressed the meeting on the work the church is facing in this diocese, and throughout Canada in the Anglican church. An excellent discussion followed the Bishop's address.

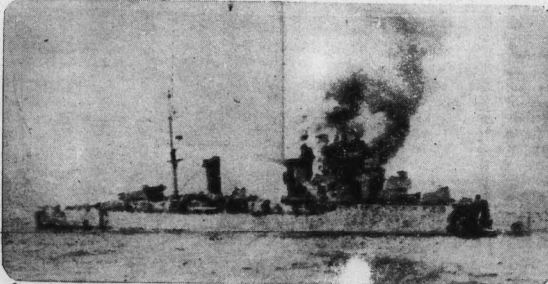

## Fire Brigade Gets Early Call

The sound of the fire siren at 4:45 got a large number of citizens out early Monday morning, when an unused barn on the property occupied by Mr. and Mrs. Roland Fleming was burned to the ground. The fire was discovered by Art Heywood who turned in the alarm, but it had such a start that the building was beyond saving before the fire department could arrive at the scene. Cause of the fire is unknown. Fortunately, there was no wind and other buildings in the vicinity were not endangered.

## The End of an Italian Cruiser

This line of shells exploding about the Italian cruiser Bartolomeo Colleoni, the world's fastest cruiser, testifies to the deadly accuracy of the gunnery of the Australian warship the Sydney. The action took place in the Mediterranean Sea early this summer, the Italian cruiser being sent to the bottom. (Inset) The geyser of smoke and steam rising from the Italian cruiser just before it sank.

The bow blown off by the terrific punishment of the Sydney's shells and smoke billowing from its fire control tower the Italian cruiser wallows helplessly before plunging to its last resting place.

## LOCALS

Rev and Mrs. A. D. Currie were visitors in Turner Valley on Tuesday.

Mr. T. Tredway returned to his office on Tuesday, after being on the sick list for several days.

Sunshine School is holding a dance on Friday, Nov. 1st, to raise funds for their Christmas concert.

Mr. H. N. Jones has accepted a position with the Innisfail Flour Mills.

Mrs. E. Sharp had as her guests last Friday, Mrs. O. Johnson, Mrs. H. Davis and Mrs. Clayton of Airdrie, and Mrs. Angel of Calgary.

Mr. C. L. Burkitt of Edmonton is relieving at the C.P.R. station here during the absence of the agent, Mr. P. H. Fleming.

Mr. Ed. Michel, west of town, is nursing a sore right foot, having had a bone broken when a horse stepped on it.

Lorne Sharp went to Calgary today and expects to leave there for the east on Saturday night to train in the R.C.A.F.

Mr. H. A. Bannister returned home from the hospital on Tuesday afternoon. Though still confined to his home, he is progressing favorably and his friends wish him a speedy recovery.

Mr. and Mrs. P. H. Fleming spent the week end in Canmore, guests of Mr. and Mrs. C. R. Summerhayes. On their return, Mr. Fleming went up to Lesser Slave Lake for a goose hunt.

## Good Turnout At Recital

The recital of Miss Kathleen Greene, Calgary elocutionist, sponsored by Ladies' Aid Group 2, drew a good crowd last Friday evening and those present enjoyed a splendid entertainment. Miss Greene divided her program into four groups and these were interspersed with musical selections, which included a duet by Barry Jones and Gordon Fox, a piano solo by Miss Ruth Richardson, a vocal solo by Miss Wilda Laut and a piano solo by Mrs. J. Scholtefeld.

## United Church Ladies Hold Tea

A delightful Tea was held at the home of Mrs. Ed. Fox on Wednesday afternoon, with Ladies' Aid Group 2 as hostesses. The rooms were appropriately decorated in keeping with Hallowe'en and the servants wore jaunty paper caps and aprons in orange and black. During the afternoon, an interesting demonstration in rug and cushion making was given by Miss Fay Brown of Calgary.

## ENGAGEMENT

The engagement has been announced of Muriel Doreen, only daughter of Mr. and Mrs. G. E. Pollitt of Calgary, to Gordon Wallace Johnson, son of Mr. and Mrs. N. A. Johnson of Crossfield, the marriage to take place in November.

## LOCALS

The Crossfield branch of the Veterans' Volunteer Reserve are sponsoring the annual Legion dance in the U.F.A. hall on Friday, November 8.

Commencing next Wednesday afternoon, October 30th, the regular Wednesday half-holidays will be resumed and all places of business will remain closed.

The anniversary services of the United Church will be held Sunday, Nov. 3rd. The Board have been fortunate in securing Dr. G. W. Kerby as preacher. Dr. Kerby is an outstanding speaker and needs no introduction to the people of Crossfield. Remember the date and plan to be present.

## O.C. 3rd Division

Maj.-Gen. E. W. Satterson, D.S.O. Recalled from England to the command of the Third Division C.A.S.F.

## Missionary To Speak At United Church

Rev. W. A. Roulston, Missionary on Furlough from China will visit our town on October 28th, and will speak in the United Church at 8 p.m. We are seeking the co-operation of all the organizations in the church, and also friends from the other churches will be welcome so as to make this visit very worth while.

Mr. Roulston is a graduate of the University of Toronto, Knox College and Columbia University, N. Y. He is married to Mary Vanderbilt, daughter of Dr. and Mrs. Vanderbilt, American Presbyterian missionaries in South America.

Since 1926 Mr. Roulston has been evangelistic missionary in rural areas in North Honan. He has been so successful in developing the life of the Christian Chinese as to become one of the leading missionaries in China in the matter of church worship. Mr. Roulston is an interesting speaker, his messages being very informing concerning the Chinese, and christian work among them.

An offering for expenses will be taken at the meeting.

## Threshing Nearly Completed

With continued fine threshing weather farmers have made exceptionally good progress in the district and about 90 percent of the threshing is finished. Local elevators are full up and approximately 40,000 bushels of the first quota is undelivered. All available storage space in town has been utilized.

The local Pool agent, Mr. A. McMillan, has made a good suggestion to his organization that they build an annex on the north side and an office on the east side of the elevator. If this scheme was undertaken immediately, it would give a temporary easement in the storage problem.

## High School Convention

The annual convention of High School teachers is being held in the Palliser Hotel, Calgary, on October 30, 31 and Nov. 1st. Mr. W. K. Gish, principal of Crossfield school is a member of the executive.

The local high school will be closed on Wednesday, Thursday and Friday of next week to allow the teachers to attend the Convention.

## Fair Attendance At Hereford Sale

The annual auction sale of pure-bred cattle was held Tuesday afternoon at Willow Creek Ranch by Frank Collicutt, well-known Hereford breeder. Approximately 300 were in attendance, including stock men from many points in the United States and the different provinces, as well as various parts of Alberta. Though the animals offered were of a very high quality, bidding was not exceptionally brisk and prices did not reach the high levels of former years.

A progressive community is generally in the limelight by the events carried on by the citizens. To keep abreast of the times every local organization must function regularly, meeting from time to time the important items drawn up for action.

There is always new ideas coming up that make a starting point for progressive citizens to grasp, which will eventually add to building up a better, wide-awake community.

With the fall season here and winter not far away, every local organization should take stock of themselves, and draw up a program dealing with items of interest, that will lead to building in our midst a keen, active participation in all matters of the business and social life of the community.

When parking your car on the side streets at intersections see that you are not obstructing a stop sign. Motorists are entitled to a full view of all approaching stop signs.

### Supply Expert

Senator E. S. Little

An Ottawa special dispatch to The Star announces the appointment of Senator Little, of Kingston, to the staff of the Munitions and Supply Department as a "dollar-a-year man."

He will deal with certain problems of supply.

### Household Hints

#### Codfish Balls

- 1 cup salt codfish
- 4 cups sliced raw potatoes
- 2 tablespoons milk or cream
- 2 tablespoons butter or other fat
- 1 egg Pepper

If the fish is not already shredded, pick out all the bones and shred the flesh. Simmer the fish and sliced potatoes together in plenty of water until potatoes are soft. Drain, mash and beat until fine and light; add the pepper, fat and milk, and egg, well beaten. Mix all thoroughly with a spoon. Shape into balls. Fry in a frying basket in deep fat (375-390 degrees F.) for 2 to 5 minutes. A tablespoon of vinegar pour

into glue that has become hard in a bottle will soften it.

Many furniture and floor polishes contain highly inflammable ingredients, therefore they should be applied in well-aired rooms. Cloths containing them should be destroyed or stored in covered metal boxes. Never store such polishes or cloths near a furnace or a fire. Above all never work with such polishes near lighted fires.

When you have a new enamel pan or kettle, place it in a pan of cold water and bring this water to a boil, then set it aside until the water has cooled. Such treatment will lessen the danger that the enamel cracks, chips or burns off, and will make the dish last much longer.

Indoor games are beginning to demand attention again. A cold or rainy day calls for amusement at home. Why not get acquainted with some of the new and up-to-the-minute games like Hi-Ro with its numbered blocks or Dog Fight with its airplanes and anticraft guns? Either will make many an hour enjoyable.

A rather small boy asked a foreman in a shop for a job.

"What can you do, sonny?" asked the foreman.

"Anything," replied the boy.

"Can you file smoke?" queried the foreman.

"Yes, sir, if you'll sew it in the vise for me," answered the boy. He got the job.

### Divots or Daisies, Grilse or Tennis, Victoria Has Them All in The Winter

Christmas dinner in an open flower garden, picking roses in January, playing golf on perfectly kept courses in February, plucking violets in March... that is the sort of thing that makes the southern end of Vancouver Island famous as Canada's Evergreen Playground, the only Canadian resort where warm-weather holiday activities are possible in mid-winter.

The almost complete absence of snow in and around Victoria is no myth, no product of a freak winter. Normal temperatures are: November 49, December 45, January 43, February 45, March 50. Pretty nice when compared to the

chill that descends on the rest of Canada during these dark months.

Nor is this a new thing. Victoria has been enjoying the same mild winter weather for years and years. The only difference now is that thousands of Canadians and Americans have learned about this marvelous climate and Victoria has become a very busy winter resort. This year is expected to be busier than ever because Canadians are barred from spending holidays in the United States and Americans are given a ten per cent bonus on their holiday money if they spend it in Canada. Reason enough for the unprecedented interest being shown in the West Coast city as a holiday land.

All through the winter Victoria has every type of summer sport: Golf on splendid seaside courses, tennis, lawn bowling, riding, organized hiking, fishing and yachting. The major sports event is the Empress Winter Golf Tournament, which will be held this winter from March 9 to 15 with dozens of valuable prizes at stake. The most important holiday is Christmas, which is celebrated in the world famous Empress Hotel in the good old-fashioned ways of Elizabethan England, complete with Yule log, boar's head, carols and wassail bowl. Photographs show the Empress Hotel with yachts in the foreground, and three "winter" sports, golf, fishing and hiking.

Dr. K. W. Neathby  
Director, Agricultural Department  
North-West Line Elevators Association

Short articles will appear under the above heading in this and other weekly papers once every two weeks. The agricultural publication, "Seedtime and Harvest," is already familiar to many farmers and others in the prairie provinces. These fortnightly articles will, we hope, serve as a useful supplement to the larger publication which appears only twice each year.

Our purpose is to stimulate interest in, and discussion of, various problems involved in the production of field crops not only among farmers but also, the public in general. The problems are manifold, and they vary not only from one district to another, but from year to year.

Naturally, many readers will disagree with views expressed in this column. We believe that it will be wise to plunge recklessly into controversial problems concerning field crops production; but our courage will fall when economic questions arise. We shall hope to hear from readers who disagree or who may have suggestions to offer.

Two weeks from today a discussion of black point and kernel smudge in wheat will appear. Later, articles will deal with dormancy in seeds, seed treatment problems, fibre flax, etc. We shall also consider the belief that early fall frosts are more likely to occur when the moon is "full" than at other times.

Our address is Agricultural Department, North-West Line Elevators Association, Winnipeg.

Small Boy: "I'm not afraid of going to the hospital, mother. I'll be brave and take my medicine, but I ain't going to let them pain off a baby on me like they did on you; I want a pap."

Greater advertising appropriations for tourist promotion work by government and transportation travel agencies was recommended at the close of a two-day conference held in Ottawa Oct. 15 and 16. Alberta's representative was Hon. E. C. Manning, Minister of Trade and Industry. The conference also decided that the Canadian Travel Bureau and the National Film Board co-operate in producing and distributing motion picture travelogues; that more accurate and complete statistics on tourism be compiled in order to permit scientific handling of publicity programs; and that tourist and travel advertising be conducted on a year-round, rather than a seasonal basis. The Travel Bureau was also instructed to confer with the C.B.C. in connection with program production suitable for U.S. network release for a 26 weeks period.

### New Ontario Minister

Hon. Robert Laurier  
Nephew of the late Sir Wilfrid Laurier, Mr. Laurier succeeds Hon. Paul Leduc as Ontario Minister of Mines. He was sworn in yesterday in the presence of Premier Hepburn and the whole Cabinet. For the past year he has acted as assistant secretary to Minister of Justice Lapointe.

Sale of Rothies IV, champion shorthorn sire from the Olds Agricultural School herd for the record price of \$800 is announced by Hon. D. B. Mullen. Bred by Claude Gallinger of Tofield, Rothies IV was purchased by the Department of Agriculture in 1938 and now goes to J. C. Broughton, well known breeder of Dayton, Wash.

## Off to War Again With "Buddy"

Lieutenant Hamilton Wagner (right), United States pilot, who, as a member of the French Air Force, saw Hitler's blitzkrieg and the defeat of France, is shown here on board a troop ship bound for England from a Canadian port. With him is Lieutenant David Van Epps, formerly of the U. S. Army Air Corps. Both are joining the Fleet Air Arm of the British Navy, determined to do their share in the battle to defeat Nazi Germany. Lieut. Wagner had thrilling experience to relate about the Battle of France and the disorder of the panic that accompanied it. He is a former member of the U. S. National Guard and the U. S. Naval Reserve.

## Alberta Bull Goes To Join Broughton Herd

Bringing the record sale price of \$800, Rothies IV, since 1938 leader of the Olds Agricultural School shorthorn herd has been sold to C. J. Broughton, well known cattle breeder of Dayton, Wash. Now four years old, Rothies IV was bred by Claude Gallinger of Tofield, and in 1937 carried off second prize at the Toronto Royal Winter Fair.

"It is a tribute to the quality of Alberta bred stock that prominent United States breeders are coming to this province for purebred sires," said Hon. D. B.

Mullen, comment on the sale.

"It will be recalled that at the Lacombe Bull Sale, May 30, an Aberdeen Angus bull bred at Vermilion farm topped the sale at the record price of \$500.

"During the past two years Alberta bred shorthorns have been going to Washington, Oregon and California, and an increasing demand for outstanding animals of the types required is evident among United States buyers."

## The World of Wheat

By H. G. L. Strange

Over many parts of the West rain unfortunately has fallen on unthreshed grain. This condition brings in its train a difficult problem, and particular care will have to be taken if the farmer is not to suffer serious money losses.

Owing to the congestion in terminal elevators, grain from country elevators, can now only be moved forward as space develops in the terminals. This space only becomes available as grain is milled in Canada or is shipped Overseas.

All this means that grain now being taken in by country elevators is likely to stay there for a considerable time before it can be moved forward to terminals. Grain that is tough cannot remain in any bin either on the farm or in country elevators without incurring the risk of going out of condition, of becoming heated, and so of being seriously degraded; indeed tough and damp grain has been known to become heated to the extent that thousands of bushels had to be thrown on the rubbish pile.

In the past tough grain taken in a country elevator moved quickly to the terminals where it was dried by special machinery. This year, however, it is evident that tough grain cannot possibly be moved with the same speed as in the past.

Under these circumstances farmers whose grain is threshed or combined when it is tough will almost certainly find that no country elevator will be able to accept it, because of the fear of it going out of condition, and even though the farmer should store this tough grain in a bin on his own farm, there will still be the same high probability of heating

and so of severe money loss to the farmer.

Considering all this what can be done? The answer is obvious. It is that this year at least farmers should not thresh nor combine grain until it is absolutely dry, at least dry to the extent that it is no longer damp or tough. If farmers will take particular care to watch their grain, and to thresh or combine only when the grain is in a dry condition, then it can safely be accepted by country elevators, or it can safely be stored on the farm without fear of it going out of condition.

There is no other  
tobacco JUST LIKE  
**OLD CHUM**

## USING HOME PRODUCTS

Most farms have an abundant supply of vegetables this year and very few farms do not have their own supply of milk.

Housewives who are faced with the responsibility of transforming these raw products into appetizing and wholesome dishes are usually very glad to obtain new ideas for providing variety in the meals.

From the Department of Agriculture there may be obtained, without charge, bulletins that are planned to do this very thing. "Variety in the Use of Vegetables" not only gives a great deal of general information, but suggests new ideas for using common vegetables. "The Value and Use of Milk" is very handy for the busy housewife, for from it she may obtain recipes and suggestions for using this valuable food.

Other bulletins dealing with home-making are the following: "Home Decoration", "Preservation of Fruits, Vegetables and Meats", "Meat Cookery", "Apple Recipes", "Bee Wise—Use Honey", "Honey for Canning" and a number of others. All of these publications may be obtained on application to the Agricultural Extension Service Department of Agriculture, Edmonton.

## HOG MARRETING

875,317 hogs have been marketed in Alberta during the first 40 weeks of 1940. This figure compares with 568,980 for the same period in 1939 and a total of 882,573 head for the whole of last year. During the 40th week, ending October 3, 24,817 hogs were marketed in the province, and as the fall run gets under way, the weekly sales will increase.

An analysis of the grades of hogs sold alive yields the following information. In 1939 36.7 per cent. of the hogs graded alive during the first 40 weeks were select, and 82.2 per cent were bacon or better. During the first 40 weeks of 1940, 35.9 per cent. of hogs graded alive were select, while 35.1 classified as bacon or better.

Taking into consideration the tremendous increase in numbers marketed, the quality is being maintained at a high level. Hogs marketed during October to December should all be of good quality, as feed is plentiful and other factors affecting production are satisfactory.

In spite of adverse weather and marketing conditions on collections the Alberta Hail Board will meet all claims on Nov. 1st and pay 100 cents on the dollar, it is announced. On that date, all claims amounting to 30 percent or less will be paid in full, while those in excess of 30 percent will be paid one-half, the remaining half to be paid March 1st. It is roughly estimated that the loss in ratio to premium income will be 47 per cent. as compared with 42 per cent. in 1939.

Alberta sold 171,206 more tons of wool to Ontario during the first 8 months of this year than in the same period last year, it is revealed in a recent report. Aggregate shipments for 1940 totalled 343,702 tons including domestic, railway and industrial orders. But there has been a drop in shipments to Manitoba, Only 66,469 tons were shipped compared with 119,392 tons in the 1939 period.

**And So to Bed**

Rt. Hon. Ernest Bevin

Ernest Bevin, Minister of Labour, and one of the most powerful figures in the British Government, escaped injury when a bomb fell outside the house in which he was sleeping.

The windows in the room in which the Labor Minister was sleeping were shattered by the bomb. Mr. Bevin hurriedly dressed and ran into the street, offering his aid to the wardens.

He found that the damage was comparatively slight and that his services were not required, and returned to his room and to bed.

It. F. Williams of Winnipeg, has been named lieutenant governor of Manitoba to succeed Hon. W. J. Tupper. Mr. Williams will take office on November 1st.

(NEO - CHEMICAL FOOD)**

N. C. F. Tonic is not a temporary stimulant but an aid in health building. It helps to promote the assimilation of nourishment from your food and enables the body to fortify itself against illness.

N.C.F. is a concentrated food supplement and contains, in a single preparation, as much Vitamin D as 10D Cod Liver Oil plus Vitamins A, B, Halibut Liver Oil, Iron and Copper. Phosphorus, Calcium and Iodine in protective amounts. These essential chemical and bio-chemical factors all nutrition experts emphasize to be of extreme importance.

**Britain's "Man of the Hour"**

Capt. E. D. S. McLarney, above, commander of the British cruiser H.M.S. Ajax, is Great Britain's "man of the hour." On Oct. 12 the Ajax sank two and disabled a third of Italy's destroyers in the Mediterranean in a running battle. The next morning the disabled Italian destroyer was sunk by the cruiser H.M.S. York. The Ajax took part in the South Atlantic battle on Dec. 13, 1939, in which the German pocket battleship Admiral Graf Spee was forced into the River Plate, where it was scuttled by its...
